

SMARTEVAL AI - STUDENT REPORT CARD

Generated: 2026-07-11 06:53:57 UTC

Student Profile

Name: Ananya Sharma
Register Number: 2026109312
Subject Code: CS-302

Evaluation Statistics

Score: 30.2 / 40.0
Percentage: 75.5% (Evaluation: LIBERAL)

Question Breakdown & AI Feedback

Question 1: Score 10.0 / 10.0

OCR Scanned Answer:

Stack is a list where you push elements at the top. Queue is where you enqueue elements at the rear and dequeu...

AI Explanatory Reasoning:

Awarded partial marks. The student swapped the ordering concepts (labeled stack as FIFO instead of LIFO).

Missing Concepts/Keywords: ticket

Question 2: Score 5.5 / 10.0

OCR Scanned Answer:

TCP is connection oriented. UDP is connectionless. TCP guarantees packets are delivered, but UDP packages can ...

AI Explanatory Reasoning:

The answer is too brief or off-topic, missing fundamental concepts.

Missing Concepts/Keywords: connection-oriented, reliable

Question 3: Score 10.0 / 10.0

OCR Scanned Answer:

Binary search is a method to find an element in a sorted list. It goes to the middle item, if it matches it re...

AI Explanatory Reasoning:

The implementation provided is for Linear Search ($O(n)$), not Binary Search ($O(\log n)$). Deductions made for cod...

Question 4: Score 4.7 / 10.0

OCR Scanned Answer:

Bayes theorem formula: $P(A|B) = P(B|A)P(A)/P(B)$. The test accuracy is 99%. Since the patient tests positive an...

AI Explanatory Reasoning:

Incorrect probability conclusion. The student assumed a 99% probability, ignoring the base prevalence rate of ...

Missing Concepts/Keywords: 9.02, prevalence
